Costs of a technician called to restore the accident site to its original condition (costs are borne by the insured)	EUR 435
	unlimited

Information and explanations:

The scope of coverage for Liability Insurance shall only apply if liability insurance is insured in the insurance policy.

A building under construction is a building that is not suitable for individual use, it is at least at such a stage of construction that the technical and functional arrangement of its first floor is clear (it is sufficient if the external walls are completely built up to a height of at least one meter, the partitions inside the building are not necessary) and that is being carried out on the basis of a building permit, or a construction announcement.

The upper limit of indemnity is the percentage of the agreed sum insured (abbreviated "SI") or the agreed limit of indemnity (abbreviated "Lol").

This document supplements Special Insurance Terms and Conditions for Insurance of Flats and Family Houses (OPP-HHI-B), or Special Terms and Conditions for the Provision of Assistance Services for the Insurance of Flats, Apartment Buildings and Household (OP-HHI-AS).
